Duress Eagle

# Extraordinary Safety.

Eagle brings safety and communication to your team every day. Live streaming emergencies, Intelligent walkie talkie, fall detection, 2 way calling. Connect in real time via 4G across all Duress devices.

Eagle provides a safety experience like no other.

# Emergency

Activate Emergency to stream live video, audio and location from your Eagle in real time. Your emergency can be sent to other Eagles in your team, your nominated contacts via SMS, as well as the Duress 24/7 Operations Centre. Status Updates, such as Police Requested, or False Alarm, are also sent through to all nominated people as well, keeping everyone in the loop of what is happening.

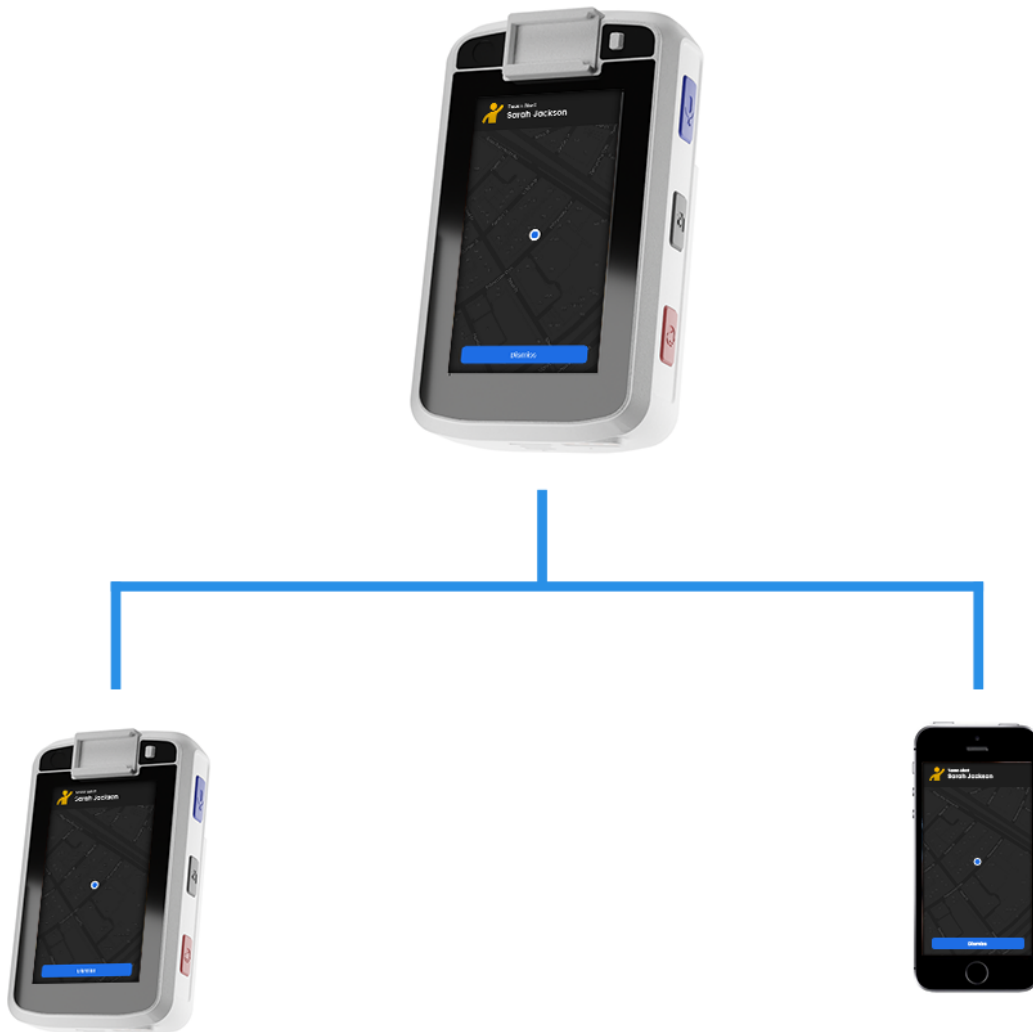

## Team Assist

Click Team Assist to send a request for assistance to your team. They will get an alert with your live location, and also the option to call you directly, Eagle to Eagle. Team Assist notifications can also be sent to your nominated contacts via SMS, which also including live location and phone number of the device.

# Walkie Talkie

The most advanced communication system ever designed is now available on Falcon. Talk to a user or talk to a group, simply say the name of the recipient in the message and it will be delivered to them in seconds. Live voice to text delivers messages discretely between your team, and users can even activate Team Assist, Emergency or talk to an Operator simply using their voice..

## And a lot more.

### **Slip trip & Fall Detection**

Falcon detects a slip, a trip, and a fall, and if then no movement asks the user if they are OK. If no response, an emergency is activated.

### **1 Week Battery**

Falcon can last up to one week, giving your team reliable safety any time of day. Place Eagle on the charging pad for 3 hours to fully charge the battery for another week.

### **Hot Swap Battery**

If you are running low, simply swap in the included second battery, without powering down the device. This gives your team 2 weeks of battery between charges.

### **Auto Upload**

As soon as you enter a known Wifi network, Eagle automatically uploads all video to the secure Duress cloud, ensuring all evidence is available and secure at all times.

### **Policies**

After uploading your policies and procedures to the portal, your team can ask questions such as “I found some money on the ground”, and receive the relevant answer.
